

# *What is* **GOVCONNECT?**

GovConnect is a vast database with every piece of information a company would need to take advantage of the Federal, State, City, and Municipal Government marketplaces. Government contracting can be extremely daunting if you do not have the correct information or knowledge of what to do with that information. The GovConnect database compiles bid opportunities from over 5,500 different bid sites. It is customize-able to your business by using keywords, industry codes, and class codes.

B2G's experts will guide you through the database and show you how to market your business to ensure you receive the most lucrative contracts.

## ***Securing a Contract Starts with GovConnect***

Along with thousands of bid opportunities to pursue, every bit of information needed to bid, market to government agencies, sub-contract, find partners and compile market research can be found in GovConnect. No matter what size of business you own, knowing who purchases your products or services is the key to building a high-quality government contracting business plan.
